

## V-CALC partners invite volunteer managers across the EU and neighbouring regions to participate at

# VOLUNTEERING IMPACT MEASUREMENT TRAINING IN EUROPE

Dear volunteer managers,

We invite you to the training tailor-made for volunteer managers from EU and non-EU countries looking to enhance your impact measurement practices. Whether you are seasoned in the field or new to volunteer management, this training will offer valuable insights into capturing the essence of volunteering efforts and equip volunteer managers with the knowledge and practical skills necessary to utilise the V-CALC methodology and the platform developed (<https://volunteeringimpact.eu/>) for effective volunteer impact measurement.

In order to make this opportunity accessible across Europe and to enhance the skills of volunteer managers, share experiences, and collectively work towards a more impactful volunteering landscape in Europe, participation at the training will be possible by the end of this year.

Each training will last up to 2 hours, encompassing interactive sessions, practical exercises through group work and engaging discussions to dive into the V-CALC methodology and providing hands-on experience with the online platform. The sessions will be conducted in English.

Join us to navigate together through the volunteer impact measurement and to contribute to promoting common European values through your volunteering efforts on one of our sessions:
